Benefit Terms

Annual Deductible: the amount that you are required to pay each year before a plan begins to pay benefits.

Coinsurance: the percentage of the cost that you are required to pay when you receive covered health care services.

Copay: the flat-dollar amount that you are required to pay when you receive covered health care services. Copays are typically due at the time that you receive the service.

In-Network: care or services provided by doctors, hospitals, labs or pharmacies that participate in the network of providers who have contracted with your plan provider. Generally, due to negotiated lower fees with these providers, you pay less when you stay In-Network.

Maximum Out-of-Pocket: the most that you are required to pay in a plan year for covered health care services. After you spend this out of pocket amount on Deductibles, coinsurance, and Copays for in-network care, your plan pays 100% of the costs of all eligible expenses for the remainder of the plan year.

Out-of-Network: care or services provided by doctors, hospitals, labs or pharmacies that do not participate in the network of providers who have contracted with your plan provider. Generally, you pay more when you go Out-of-Network.
